We Survived the Spring Flood of 2013

Because the water stayed for several days we had to move out of our building and had to office elsewhere for 2 ½ months while the restoration crew cleaned and repaired the walls and floors. We want to thank all of our customers for being patient with us during this time. It was a hassle too transfer phones and computers, thank God for cell phones they really helped us through. We were relieved to move back into our offices and the rest of our building. The rehab crew really did a great job, Thanks to you all for helping us stay in business through this and for the last 38 years! Our hat's off to you.
